

ALAMEDA COUNTYWIDE TRANSPORTATION PLAN Update Meeting Announcement

Project Area Map

Seven of the Bay Area's top 10 most congested freeway locations (during commute hours) are located in Alameda County. The role of the Alameda County Congestion Management Agency (ACCMA) is to recommend, fund and implement transportation projects that manage congestion. To do this the Alameda Countywide Transportation Plan (CWTP) was developed. The plan guides transportation investments over the next 20 years.

WHERE YOU COME IN

Periodic updates to the CWTP, which addresses freeways, buses, rail, ferries and other options like telecommuting, bicycling and pedestrian facilities are needed. ACCMA is hosting four open houses/public meetings during the month of April to do just that. Learn more about recommended projects in the plan. Your participation helps ensure nothing is overlooked. **You are invited to visit us at one of the meetings listed in the box.** The same information will be presented at each meeting.

Questions?
